END USER LICENSE AGREEMENT (EULA)

Product: Logic Archaeologist Pro (Virtual Appliance)
Vendor: ulshe.ai LLC ("Vendor", "We", or "Us")
Effective Date: October 2026

IMPORTANT, READ CAREFULLY: THIS END USER LICENSE AGREEMENT ("AGREEMENT") IS A LEGAL CONTRACT BETWEEN YOU (EITHER AN INDIVIDUAL OR A CORPORATE ENTITY, HEREINAFTER "CUSTOMER" OR "YOU") AND ULSHE.AI LLC FOR THE LOGIC ARCHAEOLOGIST PRO SOFTWARE, THE PROPRIETARY MANDALIC BEHAVIORAL ENGINE, THE AGENTIC AI GATEWAY, AND ASSOCIATED BINARIES, SCRIPTS, AND DOCUMENTATION (COLLECTIVELY, THE "SOFTWARE").

BY DEPLOYING THIS AMAZON MACHINE IMAGE (AMI), APPLYING A LICENSE KEY, OR OTHERWISE USING THE SOFTWARE, YOU AGREE TO BE BOUND BY THE TERMS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO THESE TERMS, DO NOT DEPLOY, ACCESS, OR USE THE SOFTWARE.

1. DEFINITIONS

- **"Software"** refers to Logic Archaeologist Pro, the Mandalic Behavioral Engine, the Agentic AI Gateway, the desktop environment, and any associated binaries provided by Ulshe AI via the AWS Marketplace or direct delivery.
- **"Language Strategy"** refers to the discrete domain-specific parsing and topological analysis modules (e.g., C/C++ User Space, Rust Kernel Space, JavaScript, Python).
- **"Seat" or "Authorized User"** means a unique individual employee, contractor, or designated agent authorized to access the Software desktop session.
- **"Findings"** refers to topological execution flows or structural anomalies flagged by the Mandalic Behavioral Engine for human engineering review.
- **"Digital Twin"** refers to the structured AST JSON metadata and topological dependency maps emitted locally by the Software during code ingestion.

2. LICENSE GRANT & SEAT RESTRICTIONS

2.1. Individual Seat License
Subject to payment of applicable fees via the AWS Marketplace or direct commercial invoice, Ulshe

AI grants Customer a limited, non-exclusive, non-transferable, revocable license to deploy and operate the Software for a **single (1) Authorized User (Seat)**. Sharing access credentials, license keys, or concurrent desktop sessions across multiple engineers on a single-seat license constitutes a material breach of this Agreement.

2.2. Bulk & Enterprise Licensing
Organizations requiring multiple seats, site-wide enterprise deployment, or multi-appliance clusters **must obtain a Bulk or Enterprise License Agreement (ELA)**. Enterprise licensing is provisioned via AWS Marketplace Private Offers or direct corporate contract. Please contact `sales@ulshe.ai` to configure bulk seat pricing or an enterprise tier.

2.3. Cryptographic Strategy Enforcement
Language Strategies are cryptographically authorized using offline JSON Web Tokens (JWT). Customer may only analyze code languages explicitly licensed and encoded into Customer's verified license token. Bypassing, modifying, or forging license tokens is strictly prohibited.

3. LICENSE RESTRICTIONS

Under this Agreement, Customer may **NOT**:

- Reverse engineer, decompile, disassemble, or attempt to derive the underlying mathematical formulas, Base-60 wave algorithms, or multi-dimensional dissonance calculations of the Mandalic Behavioral Engine.
- Sublicense, rent, lease, resell, or distribute the Software to third parties without prior written consent.
- Circumvent or attempt to disable the cryptographic strategy verifier or the local seat limits.
- Remove, alter, or obscure any proprietary copyright notices or compliance watermarks embedded in the Software or generated reports.
- Use the Software or its topological outputs to train or benchmark competing static analysis engines.

4. AGENTIC AI REMEDIATION & HOLD HARMLESS

The Software incorporates an optional Agentic AI Gateway capable of routing isolated code execution spines to commercial Large Language Models (LLMs) or customer-managed local models.

- **4.1. Context-Grounded Advisory Output:** AI-generated root cause analyses, architectural safeguards, and remediation code patches are generated using context-grounded AST spines to significantly mitigate hallucinations. However, all AI outputs remain probabilistic and advisory in nature.
- **4.2. Mandatory Human Review:** Customer is solely responsible for verifying, reviewing, manually editing, and testing any AI-generated code patch prior to merging, compiling, or promoting it into production environments.

- **4.3. Hold Harmless:** Ulshe AI shall bear **zero legal or financial liability** for software defects, compiler errors, system outages, data corruption, or vulnerabilities arising from Customer's adoption, modification, or deployment of AI-generated code patches.

5. POINT-IN-TIME DIAGNOSTIC DISCLAIMER

- **5.1. Diagnostic Scope:** The Software provides a point-in-time behavioral static analysis to identify Findings. Given the evolving nature of software architectures, Ulshe AI does not warrant that the Software will identify 100% of flaws, memory corruptions, or zero-day exploits.
- **5.2. "Zero Findings" Disclaimer:** An output indicating "0 Findings Detected (Topologically Sound)" indicates that no dissonant patterns were detected against active signatures at execution time, it does not constitute a legal or technical warranty that the audited codebase is invulnerable.

6. COMPLIANCE ARTIFACTS & AUDIT LEDGERS

The Software compiles immutable Markdown audit reports (e.g., the Code Base Findings Ledger) and CSV event logs for internal compliance evidence. Ulshe AI is not an accredited public accounting firm. The Software produces technical artifacts intended as evidentiary support, it does not directly certify Customer under AICPA SOC 2 standards.

7. DATA CUSTODY & AIR-GAPPED OPERATION

- **7.1. AST Generation & Processing:** The ingestion, parsing, and Digital Twin AST generation processes operate 100% in-memory and air-gapped within Customer's instance. Ulshe AI collects zero customer source code, zero AST twins, and zero customer telemetry.
- **7.2. Agentic AI Connectivity:** If Customer chooses to utilize local, self-hosted LLMs, the AI Remediation pipeline remains 100% air-gapped. If Customer actively configures the Software with a third-party commercial API key, the Software will securely route context-grounded data to that external service. Customer is strictly responsible for reviewing the data retention policies of their chosen third-party AI provider.
- **7.3. Customer Infrastructure Custody:** Customer retains complete operational control and responsibility over Customer's AWS infrastructure, including EC2 instance firewalls, streaming security, IAM role policies, and Amazon S3 export buckets.

8. OWNERSHIP OF INTELLECTUAL PROPERTY

Ulshe AI retains all right, title, and interest in and to the Software, including all copyrights, patents, proprietary Mandalic algorithms, trademarks, and documentation. Customer retains sole ownership of all customer source code audited and all Digital Twin JSON files generated by the appliance.

9. WARRANTY DISCLAIMER

THE SOFTWARE IS PROVIDED "AS IS" AND "AS AVAILABLE" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. ULSHE AI DOES NOT WARRANT THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE.

10. LIMITATION OF LIABILITY

TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT SHALL ULSHE AI BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF CODE, OR SECURITY BREACHES) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE. IN ALL CASES, ULSHE AI'S TOTAL AGGREGATE LIABILITY UNDER THIS AGREEMENT SHALL BE STRICTLY LIMITED TO THE ACTUAL FEES PAID BY CUSTOMER FOR THE SOFTWARE IN THE TWELVE (12) MONTHS PRECEDING THE CLAIM.

11. TERM & TERMINATION

This Agreement is effective upon deployment and continues until Customer's purchased subscription term expires or is terminated. Customer's rights under this Agreement terminate automatically without notice if Customer fails to comply with any provision. Upon termination, Customer must cease all access, delete all copies of the Software, terminate all associated EC2 instances, and deregister all AMIs.

12. GOVERNING LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of Nevada, USA, without regard to its conflict of law principles.

13. GENERAL PROVISIONS

This Agreement constitutes the complete and exclusive understanding between Customer and Ulshe AI regarding the Software and supersedes all prior proposals or representations. For enterprise licensing, volume seat expansion, or custom SLA contracts, contact `sales@ulshe.ai`.
