modelizeIT Inc., 25 Health Sciences Drive, Stony Brook, NY 11790, info@modelizeIT.com

modelizeIT End User License Agreement

This End User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and modelizeIT Inc., a New York State corporation ("modelizeIT") with regard to the copyrighted and proprietary software provided with this EULA. The software includes computer software, the associated media, any printed materials, and any online or electronic documentation. Use of any software and related documentation (collectively, "Software") provided to you by modelizeIT in whatever form or media, will constitute your acceptance of these terms. If you do not agree with the terms of this EULA, do not download, install, copy or use the Software (or "click to accept" this EULA, if applicable). By installing, copying or otherwise using the Software (or having "clicked to accept" this EULA, if applicable), you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, modelizeIT is unwilling to license the Software to you.

1. Eligible Licensees. This Software is available for license solely to users who have paid the appropriate license fee for the Software whether directly or by a service provider on their behalf (or have otherwise been approved to use free of charge on a trial basis), with no right of duplication or further distribution, licensing, or sub-licensing. IF YOU (OR YOUR APPLICABLE SERVICE PROVIDER) HAVE NOT PAID THE LICENSE FEE FOR THE SOFTWARE (OR HAVE NOT OTHERWISE BEEN APPROVED TO USE THE SOFTWARE FREE OF CHARGE ON A TRIAL BASIS), THEN DO NOT DOWNLOAD, INSTALL, COPY OR USE THE SOFTWARE (OR CLICK TO ACCEPT THIS EULA, IF APPLICABLE).

2. License Grant. modelizeIT grants to you a limited, non-transferable, non-sublicensable and nonexclusive right to use the copy of the Software provided with this EULA during the License Term (defined below) for your internal use only. You agree you will not copy the Software except as necessary to use it on the processing servers to process the data collected on your internal target servers. You agree that you will not use the Software to collect and process the data on more processing servers and on more target servers (Total Servers) than is explicitly allowed to you in your license. You agree that you will use the Software only during the license term ("License Term") explicitly specified in the license you are being provided. You agree that you will stop using the Software and will destroy all Software copies after the expiration of the License Term. You agree that you may not copy the written materials accompanying the Software. Modifying, translating, renting, copying, transferring or assigning all or part of the Software, or any rights granted hereunder, to any other persons and removing any proprietary notices, labels or marks from the Software is strictly prohibited. Furthermore, you hereby agree not to create derivative works based on the Software. You may not transfer, loan, rent, or lease the Software.

3. Copyright. The Software is licensed, not sold. You acknowledge that no title to the intellectual property in the Software is transferred to you. You further acknowledge that title and full ownership rights to the Software will remain the exclusive property of modelizeIT and/or its suppliers, and you will not acquire any rights to the Software, except as expressly set forth above. If you provide any suggestions, ideas, enhancement requests, recommendations or feedback regarding the Software ("Feedback"), modelizeIT may use and incorporate the Feedback in modelizeIT Software. All copies of the Software will contain the same proprietary notices as contained in or on the Software. All title and copyrights in and to the Software (including but not limited to any images, photographs, animations, video, audio, music, text and scripts, signatures, patterns, customizations, code incorporated into the Software), the accompanying printed materials, and any copies of the Software, are owned by modelizeIT or its suppliers. The Software is protected by copyright laws and international treaty provisions. You may not copy the printed materials accompanying the Software.

4. Non-disclosure. You agree to take all reasonable measures to protect the secrecy of and avoid disclosure of Software in order to prevent it from falling into the public domain or the possession of persons other than

agents of modelizeIT or persons to whom modelizeIT consents to such disclosure. You agree that any impending or actual disclosure of Software in violation of the terms of this EULA would cause modelizeIT immediate or irreparable injury, loss and damage for which an adequate remedy at law may not exist. Therefore, you agree that, in the event of a disclosure or threatened disclosure of Software, modelizeIT may, in addition to any other remedies to which it may be entitled, institute and prosecute proceedings in a court of competent jurisdiction to obtain temporary and/or permanent injunctive relief to enforce any provision therefore, without the necessity of proving actual injury, loss or damage, or of posting a bond.

5. Reverse Engineering. You agree that you will not attempt, and if you are a corporation, you will use your best efforts to prevent your employees and contractors from attempting to reverse compile, modify, translate or disassemble the Software in whole or in part. Any failure to comply with the above or any other terms and conditions contained herein will result in the automatic termination of this license and the reversion of the rights granted hereunder to modelizeIT, in addition to any rights modelizeIT may have at law or in equity.

6. Disclaimer of Warranty. The Software is provided "AS IS" without warranty of any kind. modelizeIT and its suppliers disclaim and make no express or implied warranties and specifically disclaim the warranties of merchantability, fitness for a particular purpose and non-infringement of third-party rights. The entire risk as to the quality and performance of the Software is with you. Neither modelizeIT nor its suppliers warrant that the functions contained in the Software will meet your requirements or that the operation of the Software will be uninterrupted or error-free. modelizeIT is not obligated to provide any updates to the software.

7. Limitation of Liability. modelizeIT's entire liability and your exclusive remedy under this EULA shall not exceed the price paid for the Software license. In no event shall modelizeIT or its suppliers be liable for any damages whatsoever (including, without limitation, incidental, direct, indirect special and consequential damages, damages for loss of business profits, business interruption, loss of business information, or other pecuniary loss) arising out of the use or inability to use the software, even if modelizeIT or its supplier has been advised of the possibility of such damages, or any claim by a third party. Because some states/countries do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitation may not apply to you.

8. Data Privacy. The Data Processing Agreement (“DPA”) that applies to modelizeIT’s processing of your personal data is located at www.modelizeIT.com/documents/us/modelizeIT-DPA.pdf and may be updated from time to time.

9. Upgrades. If the Software is an upgrade from an earlier release or previously released version, you now may use that upgraded product only in accordance with this EULA. If the Software is an upgrade of a software program which you licensed as a single product, the Software may be used only as part of that single product package and may not be separated for use on more processing and target servers than explicitly allowed by modelizeIT. Product support for the Software is provided by modelizeIT or your service provider, as applicable.

10. Indemnification by You. If you distribute the Software in violation of this EULA, you agree to indemnify, hold harmless and defend modelizeIT and its suppliers from and against any claims or lawsuits, including attorney's fees that arise or result from the use or distribution of the Software in violation of this EULA.

11. No AI Training. You may not use any data or reports produced by Software or any derivative reports to train any artificial intelligence, machine learning, large language models, or other similar networks, algorithms, or systems.

12. Governing law. This EULA is governed by and construed in accordance with the substantive and procedural laws of the United States and the State of New York. You and modelizeIT agree to submit to the exclusive jurisdiction of, and venue in, the courts of Suffolk County in New York in any dispute arising out of or relating to this EULA. The United Nations Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act do not apply to this EULA.
