SFTPGO'S AND ITS LICENSORS' LIABILITY UNDER THIS EULA WILL NOT, IN ANY EVENT, EXCEED THE LICENSE FEES YOU PAID FOR THE SOFTWARE, IF ANY. THE FOREGOING LIMITATIONS SHALL APPLY REGARDLESS OF WHETHER SFTPGO OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE.

7.7. *License Modification.* Licenses can always be upgraded to a higher level of service or product, by requesting such modification through the relevant purchase services or a reseller. Conversely, downgrading of the license is not possible nor in terms of number of installs or other relevant metrics, neither in level of services or product. As a general rule, downgrading involves one or more of a lower fee; shorter duration term or fewer users. In case of doubt, You are required to ask SFTPGO if a change is a downgrade. It is not possible to combine several licenses to create a single larger license, nor is it possible to split a license in to two or more

licenses. Even where selling software is permitted, a sale must always involve the entirety of the license even if it is for multiple installs, seats, sites, concurrent accesses etc.

8. ADDITIONAL LICENSE TERMS AND CONDITIONS

In addition to the above sections, the Software is subject to the following terms and conditions depending on the license options you choose when you purchase the Software. For Software licensed on a Subscription basis, You may create and use for up to the number of licensed installs, seats, sites, concurrent accesses or similar metrics indicated in your purchase, only during the term of the Subscription. At the expiration of the Subscription, the license expires and the Software is disabled, ceasing to provide it functionalities. Also, At expiration of Subscription, it will not be possible to benefit from SFTPGO Technical Support for expired Software and related Software -- unless, in the latter case, it is not otherwise supported.

8.2. *PERPETUAL LICENSE.* This license has no duration restrictions and remains valid as long as the version is on the same release as the one you select during your purchase or the one you have upgraded to under the applicable [Maintenance Service](#). If you update to a different release, this license does not cover such update and a new license for the proper release must be purchased, unless You have a non-mandatory [Maintenance Service](#) in place, subject to a Maintenance fee. The Maintenance service includes the right to upgrade and update the Perpetual license to all new releases and provides access to SFTPGO Technical Support. The Maintenance fee for the first year after purchase of a Perpetual License is included in the purchase price; after the first year, it should be renewed. The Maintenance Service must be kept active without gaps – in case Technical support or upgrade to a new release is required after a Maintenance Service subscription has already expired, including the one included in the purchase of a Perpetual License, the Maintenance Service fees must be purchased for all the unpaid years, starting from the expiring date of the original one, at full list price, unless You successfully negotiate different terms with SFTPGO.
