

End User License Agreement

SMARTe Inc. — AWS Marketplace | Effective April 1, 2025

Governing Terms

Your use of the SMARTe platform through AWS Marketplace is governed by the SMARTe [Terms of Service](#). If you have a separately executed written subscription agreement with SMARTe Inc., that agreement governs instead.

Privacy

Use of the SMARTe platform is subject to the SMARTe [Privacy Policy](#). SMARTe is GDPR, CCPA, and SOC2 compliant.

Billing

All billing is handled exclusively through AWS Marketplace. SMARTe does not collect payment information outside of the AWS Marketplace transaction.

Consumption-Based Pricing

SMARTe operates on a credit-based model. Credits are deducted per data type accessed — contact records, mobile numbers, technographic lookups, and company records — each billed as separate dimensions under your AWS Marketplace subscription. Unused credits do not carry over beyond the subscription period unless agreed in writing.
