

AWS Marketplace Terms for Sierra Platform Services

These terms apply to the products and services made available by Sierra Technologies, Inc. (“**Sierra**”) through the AWS Marketplace (the “**Platform Services**”).

1. Governing Agreement. Your subscription to and use of the Platform Services are governed by Sierra's Platform Services Agreement, available at <https://sierra.ai/legal/u/marketplace-agreement> (the “**PSA**”).

2. Acceptance. By subscribing to, accessing, or using the Platform Services, you accept the PSA on behalf of the organization you represent, and you represent and warrant that you are authorized to bind that organization (references to “**Customer**” in the PSA mean that organization). If you are not so authorized, or do not agree to the PSA, you may not subscribe to or use the Platform Services.

3. Existing Agreements. If your organization and Sierra have separately entered into an agreement covering the Platform Services that has not expired or been terminated, that agreement governs your use of the Platform Services in place of the PSA.
