

By subscribing to any product or service (collectively, “Services”) offered by AssemblyAI on the Amazon Web Services Marketplace (“Marketplace”), you acknowledge you have read and agree to the AssemblyAI Privacy Policy (available at www.assemblyai.com/legal/privacy-policy), and Terms of Service (“TOS”) (available at www.assemblyai.com/legal/terms-of-service).

The TOS forms an agreement between AssemblyAI (“AssemblyAI”, “us”, “we”, “our”) and you as an individual, or the organization, company, or other entity that you represent (“Customer”, “you”, “your”, “yours”).

This TOS applies to any Services made available to you through any means by AssemblyAI. You may not enter into this TOS, and use the requisite Services, on behalf of an organization, company, or entity unless you have the legal authority to bind that entity, and in such circumstances are prohibited from using the Service.

In the event you have agreed to a separately negotiated Terms of Service (“Offline Order”) with AssemblyAI that has neither expired nor been terminated, and covers the same Services, such Offline Order will continue to govern and apply to the Services subscribed to on the Marketplace.
