

React PDF End User License Agreement (EULA)

Last updated: 11 September, 2025

This End User License Agreement (“Agreement”) is a legal agreement between you (“Licensee”) and React PDF (“Licensor”) governing the use of the React PDF software and associated materials (“Software”). By purchasing a license through Licensor’s website or AWS Marketplace, and/or by installing or using the Software without a watermark, Licensee agrees to be bound by this Agreement. If Licensee does not agree, no license should be purchased or activated, and the Software must not be used beyond its watermark-limited evaluation mode.

1. License Types

1.1 Developer License

A Developer License grants a single natural person (“Developer”) the right to install and use the Software to create End Products. If more than one Developer requires use, additional Developer Licenses must be purchased.

1.2 Organization License

An Organization License grants a legal entity the right for all its employees and contractors to use the Software to create End Products, without limitation on the number of Developers. The Organization License also includes the right to use the Software in an on-premise environment without requiring internet access for license validation.

2. Definitions

- “End Product”: A product or application developed using the Software. For example, a website, mobile application, or system that incorporates the Software constitutes an End Product.
- “Licensee”: The individual or entity acquiring the Software license through AWS Marketplace.
- “Developer”: An individual person using the Software under a Developer License.

3. Evaluation Use

The Software may be installed via npm and used in evaluation mode, during which output will include a watermark. Such evaluation use is permitted solely for testing and non-commercial purposes. Removal of the watermark and any commercial use of the Software requires the purchase and activation of a valid license under this Agreement.

4. License Grant

Subject to the terms of this Agreement and payment of applicable fees, Licensor grants Licensee a non-exclusive, non-transferable license to:

- Use the Software to create unlimited End Products for internal use or for Licensee's clients.
- Distribute the Software as part of an End Product, provided the Software cannot be extracted or used independently by third parties.
- Retain ownership of all original content created with the Software, while Licensor retains copyright and intellectual property rights in the Software.

5. Restrictions

Licensee shall not:

- Reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code of the Software.
- Resell, sublicense, or redistribute the Software except as permitted in Section 4.
- Remove or alter copyright, trademark, or proprietary notices contained in the Software.
- Use the Software to create a product that competes directly with React PDF.
- Share or misuse licenses.

6. AWS Marketplace Transactions

All billing, payments, and delivery are handled by AWS Marketplace in accordance with AWS Marketplace terms of use. Licensor has no responsibility for AWS Marketplace account management, billing, or payment disputes.

7. Updates and Support

Licensee is entitled to one (1) year of updates and support from the date of license purchase. Additional support or updates may require renewal or separate purchase.

8. Intellectual Property

All rights, title, and interest in and to the Software remain with Licensor. This Agreement does not grant Licensee any rights to Licensor's trademarks, trade names, or logos.

9. Warranties and Disclaimer

The Software is provided "AS IS," without warranty of any kind, express or implied, including but not limited to merchantability, fitness for a particular purpose, and non-infringement.

10. Limitation of Liability

To the maximum extent permitted by law, Licensor's total liability under this Agreement shall not exceed the amount paid by Licensee for the Software. In no event shall Licensor be liable for indirect, incidental, or consequential damages.

11. Term and Termination

This Agreement remains in effect until terminated. Licensor may terminate this Agreement immediately if Licensee fails to comply with any term. Upon termination, Licensee must cease use of the Software and destroy all copies.

12. Data Protection and Privacy

12.1 Local Operation

The Software operates entirely within Licensee's environment. The Software does not transmit, collect, or store personal data on behalf of Licensee, and all data processed by the Software remains under Licensee's control.

12.2 License Key Generation

License keys are generated through Licensor's website and may require Licensee to provide limited account details (such as email address and whitelisted domain). Such information is processed in accordance with Licensor's Privacy Policy, available at <https://www.react-pdf.dev/privacy>.

12.3 Licensee Responsibility

Licensee remains solely responsible for compliance with applicable data protection laws, including the EU General Data Protection Regulation (GDPR), in relation to any personal data processed using the Software. Licensor does not act as a processor of Licensee's data.

13. Export Control

Licensee shall comply with all applicable export laws and regulations and shall not export or re-export the Software to prohibited jurisdictions or users.

14. Governing Law and Jurisdiction

This Agreement shall be governed by and construed under the laws of Singapore, without regard to conflict of law principles. Any disputes shall be subject to the exclusive jurisdiction of the courts of Singapore.

15. Entire Agreement

This Agreement constitutes the entire agreement between the parties regarding the Software and supersedes all prior or contemporaneous understandings.

16. Updates to Agreement

The latest version of this End User License Agreement will always be available at <https://www.react-pdf.dev/license-agreement>. Licensor may update this Agreement from time to time. By continuing to use the Software after an update takes effect, Licensee agrees to be bound by the updated version. In the event of any inconsistency, the version published on Licensor's website shall prevail.
